		<p>iii) Discussion of the Bank's credit risk management policy.</p> <p>The Board approves the credit policy keeping in view relevant Bangladesh Bank guidelines to ensure best practice in credit risk management and maintain quality of assets. Authorities are properly delegated ensuring check and balance in credit operation at every stage i.e screening , assessing risk, identification, management and mitigation of credit risk as well as monitoring, supervision and recovery of loans with provision for early warning system. There is a separate credit risk management division for dedicated credit risk management, separate credit administration division for ensuring perfection of securities and credit monitoring and recovery division for monitoring and recovery of irregular loans. Internal control & compliance division independently assess quality of loans and compliance status of loans at least once in a year . Adequate provision is maintained against classified loans as per Bangladesh Bank guidelines . Status of loans are regularly reported to the Board /Executive Committee of the Board</p>

(6) Interest Rate Risk in the Banking Book (IRRBB)

Qualitative disclosures	(a)	The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan repayments and behaviour of non-maturity deposits, and frequency of IRRBB measurement	Interest rate risk in the banking book arises from mismatches between the future yield of an assets and their funding cost. The Bank assess interest rate risk in earnings perspective which is traditional approach to interest rate risk assessment and obtained by measuring the changes in the Net Interest Income (NII) on Net Interest Margin (NIM) i.e. the difference between total interest income and the total interest expenses. Assets Liability Committee (ALCO) monitors the interest rate movement on a regular basis. Duration Gap analysis is one of the technique by which NCCBL measures interest rate risk in the banking book on a half-yearly basis. Duration is the measure of a portfolio's price sensitivity to changes in interest rates.			
Quantitative disclosures	(b)	The increase/(decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring IRRBB, Broken down by currency (as relevant)	Interest Rate Risk-Increase in Interest Rate	Figure in Crore Taka where applicable		
				Minor Level of Shock	Moderate Level of Shock	Major Level of Shock
			Change in interest rate	1.00%	2.00%	3.00%
			Weighted Average Yield on Assets (%)	12.85%	12.85%	12.85%
			Total Assets (Market value)	12551.65	12551.65	12551.65
			Duration GAP (year)	0.52	0.52	0.52
			Fall in MVE (on-balance sheet)	57.29	114.58	171.87
			Revised Capital	1254.01	1196.72	1139.43
			Revised RWA	11107.13	11107.13	11107.13
			Revised CAR (%)	11.29%	10.77%	10.26%

(7) Market Risk

Qualitative disclosures	(a)	<ul style="list-style-type: none"> i) Views of BOD on trading/investment activities ii) Method used to measure Market Risk iii) Market Risk Management System iv) Policies and Processes for mitigating market risk 	<p>The Board approve all policies related to market risk, sets limits and reviews compliance on a regular basis. The object is to provide cost effective funding to finance asset growth and trade related transactions.</p> <p>Standardized approach has been used to measure the market risk. The total capital requirement in respect of market risk is the aggregate capital requirement calculated for each of the risk sub-categories. For each risk category minimum capital requirement is measured in terms of two separately calculated capital charges for "Specific Risk" and "General Market Risk".</p> <p>The Treasury Division manage market risk covering Liquidity, interest rate and foreign exchange risk with oversight from Assets Liability Management Committee (ALCO) comprising senior executives of the Bank.</p> <p>There are approved limits for credit deposit Ratio, liquid assets to total assets ratio, maturity mismatch, for commitments for both on-balance sheet and off-balance sheet items and borrowing from money market and forex position. The limits are monitored and enforced on a regular basis to protect against market risk. The treasury division monitors on a daily basis to review the prevailing market condition, exchange rate, forex position and transactions to mitigate foreign exchange risks.</p>			
Quantitative disclosures	(b)	The capital requirement for:		Bank Position	Consolidated Position	
			Interest rate risk	6.01	6.01	
			Equity position risk	20.22	20.31	
			Foreign exchange risk	3.41	3.41	
			Commodity risk	-	-	

(8) Operational Risk

Qualitative disclosures	(a)	i) Views of BOD on system to reduce	The policy for operational risks including internal control & compliance risk is approved by Board taking into account relevant guidelines of Bangladesh Bank. Audit Committee of the Board directly oversee the activities
-------------------------	-----	-------------------------------------	---

Operational Risk	of internal control & Compliance Division (IC & CD) to protect against all operational risks.
ii) Performance gap of executives and staffs	NCCBL has a policy to provide competitive package and best working environment to attract and retain the most talented people available in the industry. NCCBL's strong brand image plays an important role in employee motivation . As a result there is no significant performance gap.
iii) Potential external events	No potential external events is expected to expose the Bank to significant operational risk.
iv) Policies and Processes for mitigating operational risk	The policy for operational risks including internal control & compliance risk is approved by Board taking into account relevant guidelines of Bangladesh Bank. The Bank developed a Risk Management Unit and supervisory review Committee for review and managing operation risk as well as evaluating of the adequacy of the capital . Operational risk may arise from error and fraud due to lack of internal control and compliance. Management through operational procedures of the Bank internal control and compliance division controls. Internal Control and compliance division undertakes periodical and special audit of the branches and departments at the Head Office to review the operation and compliance of statutory requirements. The Audit Committee of the Board subsequently reviews the reports of the internal control and compliance division.
v) Approach for calculating capital charge for operational risk	The Bank followed Basic Indicator Approach (BIA) for measuring capital charges for operational risk. Under the Basic Indicator Approach (BIA), the capital charge for operational risk is a fixed percentage (denoted by alpha) of average positive annual gross income of the Bank over the past three years.

		Bank Position	Consolidated Position
Quantitative Disclosures	(b) The Capital Requirement for Operational Risk	93.04	96.15
